Vacuum Pump V-700

Rotavapor® R-210/215

Rotavapor® R-210/215 rotary evaporators are designed for use in nearly all applications and feature the same high Buchi quality that customers have been relying on for over 50 years! The difference between the two models is the R-215's additional display showing vapor temperature and rotation speed, making it the ideal choice for applications that require precise monitoring and high reproducibility. Both models set industry standards for performance, ease of use, and safety through a combination of key features, including:

- Coated glassware and the automatic quick-lift provide maximum safety for the user and the product
- Long-lasting durable seals for increased service life
- Wide range of glass assemblies cover numerous applications
- Seamless integration with Buchi vacuum pumps, vacuum controllers, and chillers enable a complete evaporation solution, which increases process efficiency and saves time

Purchase **ANY Rotavapor® R-210/215** and receive a **FREE Vacuum Pump V-700**
