

Morning Pride® Fire Warrior Micro Thermal Imager

Lightweight TIC designed for hands-free operation

- Helmet-mounted design permits “hands-free” operation
- Lightweight—*weighs only 19 oz.*
- Low-profile design works easily with most helmet styles—even with *faceshields, EZ flips, or goggles*
- Center mount prevents spatial disorientation
- Adjustable boom lens is easily repositioned by wearer
- Switch easily from “normal” to “camera” vision without adjustment
- State-of-the art microbolometer technology offers superior visibility and capability to sense temperature differences and hot spots
- Takes only 3 seconds to warm up
- High-performance, self-adjusting electronic iris and anti-whiteout programming
- Transfer from firefighter to firefighter in seconds
- Powered by two AA batteries—*no expensive battery chargers required*
- Dimensions: 3 x 3 x 3”
- Meets IP 67 requirements
- Comes with one-year warranty (annual extensions available up to four years)

Camera comes with mounting kit, storage case, aluminized training cover, user information guide, and four industrial-grade alkaline “AA” batteries.
